**Tools:** Figma, FigJam, Premiere Pro, After Effects, Photoshop, Illustrator, CapCut, ChatGPT, Claude, Midjourney, Runway, ElevenLabs

**Collaboration:** Stakeholder Communication, Cross-Functional Collaboration, Agile Workflows, Client Communication, Design Estimation & Scoping

## PROFESSIONAL EXPERIENCE

**Senior UI/UX Designer & Video Editor** | **2020–Present**

*Upwork (Freelance) / Global Clients • Remote*

- Design web and mobile products, SaaS platforms, dashboards, and marketing websites for startups, SMEs, and enterprise clients.
- Lead end-to-end UX/UI work—from research and information architecture to user flows, wireframes, prototypes, usability testing, and high-fidelity UI in Figma.
- Create reusable design systems and component libraries, with clear specifications and handoff documentation for developers.
- Edit product demos, explainers, marketing videos, and motion graphics using Premiere Pro and After Effects; use AI tools to support ideation and production.
- Manage multiple client projects, communicate progress, and deliver work against agreed timelines.

**UI/UX Designer** | **2025**

*The First Sol • Remote*

- Designed The First Sol's company website, now live, with a clear, responsive experience aligned with business goals.
- Created user flows, wireframes, high-fidelity UI, and interactive Figma prototypes for web and mobile.
- Produced lightweight animated GIFs and visual assets to demonstrate product interactions and collaborated with teammates to refine usability.

**Product Designer** | **2023–2025**

*Scrape Owl • Remote*

- Designed SaaS product experiences through user flows, wireframes, prototypes, and high-fidelity UI.
- Contributed to the live dashboard product and redesigned the company website for production.
- Maintained reusable design-system components and refined navigation and workflows with usability feedback.
- Worked cross-functionally to translate product requirements into clear, scalable interfaces.

**UI/UX Designer & Video Editor** | **2021–2022**

*Tezeract • On-site*

- Designed user journeys, onboarding flows, dashboards, and responsive web interfaces focused on usability.
- Produced video content, motion graphics, and visual assets for marketing and user-engagement campaigns.

## SELECTED PRODUCT DESIGN PROJECTS

**Upwork client projects | 5-star ratings and written client feedback**

**GetRich! Turbo Admin Panel:** Designed a role-based SaaS admin experience for a financial learning platform, including dashboards, leaderboard views, user-management flows, reusable UI components, and interactive prototypes.

**MoneyGuide Kids:** Designed a family-focused financial education mobile experience covering allowances, chores, savings goals, wallet management, learning progress, and interactive prototypes.

## EDUCATION

**BS in Computer Science** — University of Karachi | 2019–2022

**Languages:** English
